BLUEBIRD EXPLORATIONS LTD.

[BBX-V] 3,964,107 SHS.

NEW TARGET ON YALAKOM GOLD - J. Kenneth Newton, president
PROPERTY TO BE DRILL TESTED of Bluebird Explorations Ltd.,

has reported the B.C. Mines
Department has informed him the permit for diamond drilling will be
issued. The proposal is to drill a series of holes to a total of 2,000
feet to test a new target 800 feet above the present adit on the
Yalakom property, near Gold Bridge, 150 miles north of Vancouver,
B.C. Work is planned to start as quickly as possible. Previous
values from sampling the adit over 850 ft. in length and over a 3-
foot width average 0.77 oz.gold/ton.

In addition, in the 1994 summer's program the consultant
located a new zone of 1,000 feet north of the adit being 50 feet wide
and traced over one-third of a mile. If weather permits after
completion of the drilling above the adit, the company will attempt
to test the new zone with one hole.
