AFTON TO MILL COPPER ORE - Richard D. Somerville, secretary,
reports Claimstaker Resources

Ltd. has signed an agreement to custom mill high grade copper ore
from its 100%-owned Alwin Mine, located near Logan Lake, south-
central B.C., at Afton Operating Corp's Kamloops area facilities.

Under the agreement, Afton will pay Claimstaker for about 86% of
the contained copper and will charge a milling fee of Cdn \$8.00 per
tonne and Cdn 60¢ per pound of copper for transportation, smelting
and refining of the concentrate.

Claimstaker anticipates that shipments of ore from the present
stockpile at the Alwin property will begin almost immediately and
continue at a rate of about 100 to 200 tonnes per day. The company
has submitted to the B.C. Ministry of Mines a mining plan and
application to re-open the Alwin Mine and start underground mining
on the existing ore reserves. The Alwin property has mineable ore
reserves of 430,000 tons grading 2.5% copper. (SEE GCNL NO.96.
