CYPRUS CANADA INC.

SPANISH MTN. EXPLORATION STARTS - J.W. Morton, P.Geo.,
president, Eastfield

Resources, and Consolidated Logan Mines report Cyprus Canada Inc. has started its exploration on the Spanish Mountain property near Likely, BC. Cyprus Canada can earn up to 50% of the property by making cash payments of \$415,000 and spending \$1,500,000 over four years. Cyprus can elect to increase its interest to 70% by carrying the property to production, in which case Eastfield's interest would be reduced to a carried 15% and Cons. Logan 15%.

Cyprus Canada will spend \$330,000 in its first phase of 2,500 m of backhoe trenching, channel sampling in conjunction with 30 line-km of grid and associated geological mapping and outcrop sampling.

Cyprus will evaluate the bulk mineable potential. Previous channel sampling returned gold values of 1.78 grams gold/tonne over 18 metres and 1.70 grams gold/tonne over 23 metres. The occurrence of widespread gold within a specific lithologic horizon is suggestive of a stratabound gold deposit. (SEE GCNL NO.49, 8Mar96, P.2 FOR PREVIOUS SPANISH MOUNTAIN PROJECT INFORMATION)
