KENRICH MINING CORP.

[KRC-V; KRMGF-NASD OTC BB] 25,717,923 SHS.

PRIME RESOURCES GROUP INC.

[PRU-T, AMEX] 76,073,913 SHS.

MORE COREY ASSAYS RECEIVED - Kenneth Trociuk, president,
Kenrich Mining Corp.,
reports receiving additional assay results from Prime Resources
Group Inc. on the Corey property located north of Stewart, northwest
BC. Prime Resources can earn a 51% interest in the PRU block of
Kenrich's 100% owned Corey property by spending \$10,580,000 on
exploration. From a total of 228 rock samples taken from the Lower
Cumberland area, samples returning significant results are tabled
OVERLEAF P.1. Gold/ silver ratios and elevated base metal contents
reflect a similar geochemical signature to Eskay Creek. Prime has
completed four drill holes in this area; more assays are pending.
(SEE GCNL NO.153, 11Aug98, P.3 FOR PREVIOUS COREY DATA)
